

SOFIA SUNDMAN

Frontend Developer & Registered Nurse

E-mail: sofia.h.sundman@gmail.com

Mobile: +46 730860729

Portfolio: sofialoven.github.io/portfolio/

A frontend developer with a nursing background brings strong communication, teamwork, and empathy to agile environments. Their skills in JavaScript, TypeScript, HTML, CSS, and tools like JIRA and Confluence, combined with a passion for accessibility, make them highly focused on creating user-friendly, inclusive web experiences. This unique blend of technical expertise and human-centered design ensures they stand out as a valuable asset.

Professional Expertise

- Problem solving
 - Time Management
 - React and Next.js
 - Javascript and Typescript
 - Communication and Collaboration
 - Accountability
 - Cypress
 - Git and Jira
-

Working Experience

Healthcare Expert for Tech Collaboration and Input, Medoma May 2024 - Now

- Conducted technical testing to ensure app functionality and quality.
- Acted as an liason, facilitating effective communication between healthcare and tech teams.
- Contributed actively to product development, offering healthcare insights for improved design.
